MICHAEL BEKELE

WEB DEVELOPER & GRAPHIC DESIGNER

| +1 972-371-8483 | Email | Github | LinkedIn | Website |

PROFILE SUMMARY

Creative, imaginative, and tech-savvy professional with more than five years of experience in tech design and front-end web development, with a recent focus on software engineering concepts. Highly driven, detail-oriented, and creative professional with the ability to demonstrate advanced and diverse technical skills—capable of significantly participating in developing new technologies and building software systems. A collaborative team player with extensive knowledge in communicating with users, other technical teams, and senior management to collect requirements and describe software product features, technical designs, and product strategy to ensure satisfactory accomplishment of tasks and effective formulation of plans. Qualified in launching innovative products and technologies with a data-driven, customer-focused, and quality-focused mindset. Equipped with an excellent work ethic, a strong sense of responsibility, and a commendable track record of dependability.

EXPERIENCE

FRONT-END DEVELOPER – *Highpoint digital*   July 2022 – Present
Responsibilities:
- Writing and debugging HTML, XML, CSS, and javascript.
- Browser testing, debugging, and Version control.
- Managing and organizing company documents, Designing & creating team sites and collaborative spaces, and tracking project progress using the Sharepoint Platform.

FULL STACK WEB DEVELOPMENT – *Coding temple*   August 2021 – June 2022
Achievements:
- Engineered a full-stack multi-page self-development web application with a React frontend and Flask backend that aids users by keeping track of habits and journal entries and visually quantifying their progress towards building a practice.
- Wrote Python script to create a RESTful API to store, create, delete, and update consumers' data and input blog entries in a database using Flask and ElephantSQL; Tested CRUD operations with mock user JSON input to test endpoints.
- Proficiently designed user dashboard to support asynchronous tasks such as a to-do list, a journal component, and an inspirational quote generator that pulls data from an API and populates a dashboard cell.
- Meticulously programmed CSS, HTML, and JavaScript to design layout for homepage, about section, dashboard, and sign-in/sign-up.

GRAPHIC DESIGNER & FRONT-END DEVELOPER – *Triple-A Auto LLC*   January 2018 – August 2021
Achievements:
- Demonstrated excellent skills in designing graphics to meet specific commercial or promotional needs, such as ads, displays, or logos.
- Assertively proposed and implemented layout and aesthetic design concepts to create designs, images, and sample layouts.
- Successfully conceptualized and created non-eCommerce and eCommerce creative website layouts and content for the company.
- Spearheaded the creation of excellent quality illustrations, logos, and websites to reflect the company's brand style.
- Exhibited outstanding performance and expertise in web development by building and maintaining the company website.
